

How can we help YOU?

This service is designed to help you solve your problems.

This may be achieved in one of the following ways:

- We will consult with you providing independent advice and information free of charge.
- ILP provide an impartial consultation service to advise on equipment available from community services free of charge. As part of this, we give you the opportunity to see and try the equipment before you receive it.
- If you are considering self purchase, or do not meet the eligibility criteria for free equipment, ILP offer a try before you buy service so that you can ensure you are buying the right product for you and your home.

You can refer yourself, or you can be referred to us by a family member, friend or health professional.

Choosing the right solution

The right equipment can make all the difference to you and help you to get on with your life in your own home.

You may be experiencing problems with:

- Getting out and about
- Preparing food and drink
- Carrying out housework
- Bathing or showering
- Getting in and out of chairs or beds
- Leisure activities.

The Independent Living Centre has a wide range of equipment for you to try.

Equipment is demonstrated privately in the “house” so you can see how well the item will look in your own home.

We also have a number of satellites throughout the county, contact us to find your nearest centre.

A guide to services

SALES SUPPORT

Once you have chosen the item you would like, our sales support will help you find the best supplier as locally as possible. We can also help if you wish to use a direct payment to buy the equipment you need.

If we do not have the product you want, we may be able to arrange a sale or return opportunity for you (subject to supplier).

We will ensure prices are reasonable through our extensive equipment data-base facility.

EQUIPMENT HIRE

If you are interested in short term hire, we have the following range of equipment available:

- Lightweight wheelchairs
- Rollators
- High back chairs

Just contact The Lantern to find out prices and availability.

If there are any other products you are interested in hiring, please contact us and we will try to accommodate you.

(Please note: You will be asked a few questions about your height and weight to ensure we have the right product for you).

NAIL CARE

ILP now has a qualified nail carer. If you are unable to cut your own nails or simply want your feet and hands massaged, this service is perfect for you. Should you have low level diabetes, ILP can tend to your feet with your GP's permission.

Treatments take place at The Lantern. However, if you are able to get 6 or more people interested in receiving nail care in your area, ILP will come to you for the same price.

Please note: home visits incur an additional cost for travel.

TRAINING

ILP can provide a wide range of training relevant to social care. As a learning centre with the Open College Network, we are able to deliver a number of accredited courses to raise your employment potential.

Courses include Accredited Trusted Assessor, Accredited Train the Trainer, Moving and Handling People and Risk Assessment to name a few. Visit our website at www.ilp-ltd.co.uk for more information and descriptions of the training available.

HOME CONSULTATIONS

All consultations for equipment are free if carried out at The Lantern or one of our satellite centres. However, if you prefer a home visit to discuss equipment or adaptations with non-council Occupational Therapists, contact us to arrange an appointment and for prices.
